

Ken Van Cleemput

Experience

2022

Internship with

2012-2017

Accountant • Responsible for monthly and yearly reporting, budgeting, review and optimization of company financial policies and processes • Several companies

2006-2012

Assistant and specialty accountant • Assisting the accountants with data entry and parts of reporting. • Several companies

During my career, I climbed the ladder from data entry to a full accounting position. Due to my wide experience in all kinds of organizations, I was also often used as the person who reviewed policies and helped review them to work better.

Education

Thomas More, Antwerp
Graduate degree in Programming

Other degrees and interests

During my work as an accountant, I had several VAT trainings. Due to personal interest, I also followed a creative writing course. In my personal time, I enjoy playing cooperative narrative games.

Software

I've worked with a plethora of accounting software and Office. During my graduate degree, I've learned to write code in Java, designed websites in Bootstrap and CSS, and have experience with Spring (React).
